

PRE - SCHOOL TO PRE - UNIVERSITY

 **Every
Child
Matters...**

VISION

To provide students with a world-class educational environment and enable students to grow as worthy human beings and influential leaders of tomorrow's world.

MISSION

Transforming lives by instilling skills and enduring learning in every student, to outshine and contribute to the society in this complex changing world.

Kautilya Vidyalaya

Kautilya Vidyalaya, a new generation education provider, has set a benchmark for progressive and holistic education since its inception in 2005. The school aims to create a dynamic learning environment where students seamlessly apply classroom knowledge to real-world situations by integrating international teaching methodologies with state-of-the-art infrastructure and technology.

Located in the heritage city of Mysuru, Kautilya Vidyalaya is a co-educational day school affiliated with CBSE, offering education from Pre-KG to Pre-University.

Under the leadership of Shri. T. Babu, Kautilya Vidyalaya offers a variety of educational pathways designed to serve as a springboard for a successful life and career. The school is committed to providing students with diverse opportunities that foster academic excellence and personal growth, preparing them for future success.

Wipro Earthian Award

Kautilya Vidyalaya has proudly won the prestigious Wipro Earthian Award twice, in 2019 and 2022, for its students' exceptional sustainability initiatives. Competing among over 55,000 schools and colleges, with 1,30,000 students and 13,000 teachers nationwide, the school emerged as one of the few honoured recipients. In 2019, Kautilya Vidyalaya was one of 10 schools recognized for its exemplary project on environmental sustainability. In 2022, out of 1,200 participating schools, the school's project on water conservation earned national recognition. The school was honoured at a ceremony in Bengaluru, solidifying its status as a Wipro Earthian School. This prestigious award reflects Kautilya Vidyalaya's commitment to sustainability and environmental education.

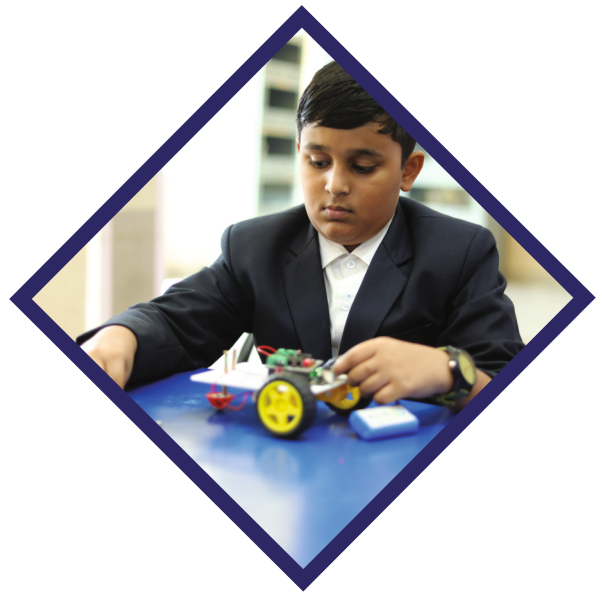

Classrooms with Touch Panels

Kautilya Vidyalaya has latest touch panel boards in every classroom, revolutionizing the traditional learning environment. These cutting edge digital boards enable teachers to create engaging lessons with multimedia content, interactive exercises, and real time annotations. By fostering active student participation, our touch panel boards make learning more intuitive and effective. This technological advancement highlights Kautilya Vidyalaya's dedication to delivering a 21st-century education, equipping students with the skills needed for a future driven by innovation and digital literacy.

ATAL Tinkering Lab

Kautilya Vidyalaya is the first school selected in Mysuru for the establishment of Atal Tinkering Laboratory (Innovation lab), a Government of India initiative to develop an ecosystem of young innovators. Students have access to a advanced innovation lab within the campus, equipped with tools such as 3D printer and Virtual Reality Studio, to translate their vision to reality.

Math Lab

At Kautilya Vidyalaya this year, we have unveiled math lab which is aligned with NEP 2020. It is designed to transform the way students experience mathematics.

An innovative math lab offers an engaging and interactive environment where students can explore mathematical concepts through hands on activities, models, and experiments.

Features:

Interactive learning: Students engage with math in a practical, experiential learning, making abstract concepts, more tangible, and understandable.

Enhanced understanding: By participating in experiments and using models, students gain a deeper appreciation and comprehension of mathematical principles

Positive attitude: Our approach fosters a love for math, encouraging students to view the subject with curiosity and enthusiasm.

Science Park

An innovative step towards promoting authentic science learning, the school's Science Park, inaugurated by Dr. B. Jayashree, Member of Parliament, in 2012, stands as a testament to hands on education. The park showcases exemplary models crafted by experts in science education. It features a diverse range of models, from the classic archetypical Sun Dial to the cutting edge World Clock, all designed to ignite students' curiosity and passion for learning.

Science Labs (Physics, Chemistry, Biology)

Laboratories in Kautilya Vidyalaya are full-fledged, congenial and secure. They are adequately equipped in terms of scientific apparatus for the purposes of demonstration, experiment and hands on experience and vital safety gear to prevent and mitigate unforeseen mishaps. Such arrangements boost the impact of learning experiences.

Library

Our library is a gateway to endless learning and creativity. Stocked with a diverse collection of books across genres and subjects, it caters to students of all grades, fostering a love for reading, research, and intellectual growth. The inviting atmosphere encourages curiosity and exploration, offering resources from storybooks to academic textbooks that support both the curriculum and students' interests. With access to digital platforms and reference materials, the library also serves as a hub for 21st-century learning. Our library is not just a place to read it's where ideas come to life.

Computer Lab

It is ensured that every pupil is given the opportunity to become digitally literate and capable of basic computer operations. A sizeable computer lab, with over 50+ computers and two facilitators to keep the pupil system ratio in check, and parental lock facility to scrutinize students' internet access is available for students' use.

Co-Scholastics

Co-scholastic activities play a vital role in the holistic development of students, fostering essential life skills such as teamwork, discipline, creativity, and leadership. These activities go beyond academics, helping students develop physical fitness, critical thinking, and emotional resilience, all of which are crucial for overall growth.

At Kautilya Vidyalaya, we prioritize the well-rounded development of our students by offering a diverse range of co-scholastic programs.

Ensuring Safety on Campus

A happy mind is a creative mind. At Kautilya, we believe that an emotional safety net is essential for a child's development into a confident individual. Our child protection cell and the student counsellor gently persuade students to unburden their concerns. This helps them to overcome their behavioral deviations, learning disabilities and other psychological challenges. The entire campus is fitted with state-of-the-art surveillance system including CCTV cameras and GPRS in the transport fleet.

From the Chairman's desk...

At KAUTILYA VIDYALAYA, you'd discover a plethora of learning possibilities that would act as a crucial stepping stone to a meaningful life and career.

- T. Babu

Education is life preparation, not merely the acquisition of knowledge. Education brings about moral values and wisdom. It makes students more approachable, develops their moral character, and sharpens their minds so that they can handle the challenges and difficulties of today's complex world better. One of the most crucial character qualities that needs to be nurtured in their young minds during their schooling is a deeply ingrained attitude of service-before-self. Both prepare students for success in life and instil in them a sense of civic duty and responsibility

Our Educators

Our team of educators is the corner stone of our commitment to excellence. Comprising highly qualified and experienced professionals, our staff is dedicated to nurturing and inspiring students. Each teacher brings a wealth of knowledge and passion to the classroom, fostering an environment where curiosity thrives and learning is a joyful experience. Our educators are not just teachers but mentors and facilitators who guide students with enthusiasm and care, ensuring that every child feels supported and encouraged.
